No Time to Lose: How to Build a World-Class Education System State by State

LEE POSEY, NCSL

October 31, 2016
About NCSL

- Instrumentality of all 50 state and territorial legislatures
- Bipartisan
- Provides research, technical assistance and opportunities to exchange ideas
- Advocates on behalf of legislatures before the federal government

NCSL is committed to the success of state legislators and staff. Founded in 1975, we are a respected bipartisan organization providing states support, ideas, connections and a strong voice on Capitol Hill.
NCSL International Education Study Group -- 28 legislators and staff

- 22 legislators and 6 legislative staff
- Eighteen months of work
  - Consulted experts
  - Studied 10 top performing countries/provinces
    (Alberta, Ontario, Estonia, Finland, Hong Kong, Japan, Poland, Shanghai, Singapore, Taiwan)
- Preparing for Phase II
Bad news: Most state education systems are falling dangerously behind the world in a number of international comparisons and on our own National Assessment of Educational Progress, leaving the United States overwhelmingly underprepared to succeed in the 21st century economy.

Good news: The good news is, by studying these other high-performing systems, we are discovering what seems to work. If we get to work right away, we can quickly turn this around as high-performing countries have.
U.S. rankings are sinking on PISA

ETS analysis finds U.S. Millenial generation workers ranked last in 2013 OECD PIAAC survey of worker numeracy, literacy and problem solving in 33 countries.

### U.S. RANKING ON PISA

The Programme for International Student Assessment (PISA) is a comparative study of 15-year-old students’ knowledge in key areas including math, reading and science.

LONG-TERM NATIONAL ASSESSMENT OF EDUCATIONAL PROGRESS (NAEP) SCORES

Over the past four decades, high school students in the U.S. have made little progress according to the “Nation’s Report Card,” administered by the NAEP.

Can the US be Fairly Compared to World Class Education Systems?

**UPPER SECONDARY GRADUATION RATES, 2013**

The OECD reports that the U.S. graduation rate is 80 percent, lower than most other high-performing countries. This dispels the assertion that other high-performing countries educate only their elite.

### PERCENT OF STUDENTS WHO ARE IMMIGRANTS

Europe and Asia have experienced an upsurge in immigration over the past several decades, and Asian countries have significant cultural, linguistic, ethnic and religious diversity.

Elements of High-Performing Systems:

Common Element #1

Children come to school ready to learn, and extra support is given to struggling students so that all have the opportunity to achieve high standards.
Elements of High-Performing Systems:

Common Element #2

A world-class teaching profession supports a world-class instructional system, where every student has access to highly-effective teachers and is expected to succeed.
Common Element #3
A highly-effective, intellectually rigorous system of career and technical education is available to those preferring an applied education.
Elements of High-Performing Systems:

Common Element #4

*Individual reforms are connected and aligned as parts of a clearly planned and carefully designed comprehensive system.*
Action Steps for States

✓ Build an Inclusive Team and Set Priorities.
✓ Study and Learn from Top Performers.
✓ Create a Shared Statewide Vision.
✓ Benchmark Policies.
✓ Get Started on One Piece.
✓ Work Through “Messiness.”
Urgent Call to Action: Begin Now, No Time to Lose!

“As state policymakers, it is our responsibility to provide our citizens with a world-class education. We cannot let another generation settle for anything less. Our future workforce, national defense, economic vitality and democratic foundation depend on our ability and willingness to get this done.

If we assemble the best minds in policy and practice, implement what we know works, and commit ourselves to the time, effort and resources needed to make monumental changes, we can once again be among the best education systems in the world. If they can do it, so can we. But there’s no time to lose.”
