

Fiscal 2025 through 2029 Phase-in

- Fiscal 2025 through 2029 phase-in of the formulas is built off the fiscal 2024 priorities identified by The Blueprint for Maryland’s Future Funding Formula Workgroup using even annual incremental increases for each formula to reach full implementation no later than fiscal 2030.
- Every school system will receive more than they would receive under current law in fiscal 2024 through 2030, and each school system will receive per pupil funding growth annually.
- Funding for the teacher career ladder begins in fiscal 2025 and phases up evenly to fiscal 2030.
- The Tax Increment Financing grant is eliminated in fiscal 2022, and several other existing grants are phased out beginning in fiscal 2025.
- Funding provided for college and career readiness (base), teacher supplies and technology, teacher salary increases, and mental health services coordinator in fiscal 2021 are added to the Foundation per pupil amount beginning in fiscal 2022.
- Foundation funding incremental increases in fiscal 2025 through 2030 include new funds to provide 25% more collaborative time for classroom teachers during the school day. The Foundation amount also includes funding for the principal career ladder and school operations and maintenance.
- Transitional Supplemental Instruction funding is phased out consistent with the Commission’s recommendations.
- Concentration of poverty grants are phased in with the highest concentration of poverty schools receiving funding first, with the 2 positions fully funded in year one and the per pupil funding beginning in year two. This approach proceeds through the concentration of poverty brackets until every school with more than 55% concentration of poverty receives funding.

Concentration of Poverty Phase-in

<u>School Percentage</u>	<u>Year Positions Phased In</u>	<u>Year Per Pupil Phased In</u>
>=80%	FY 21	FY 22
75-80%	FY 23	FY 24
70-75%	FY 24	FY 25
65-70%	FY 25	FY 26
60-65%	FY 26	FY 27
55-60%	FY 27	FY 28
