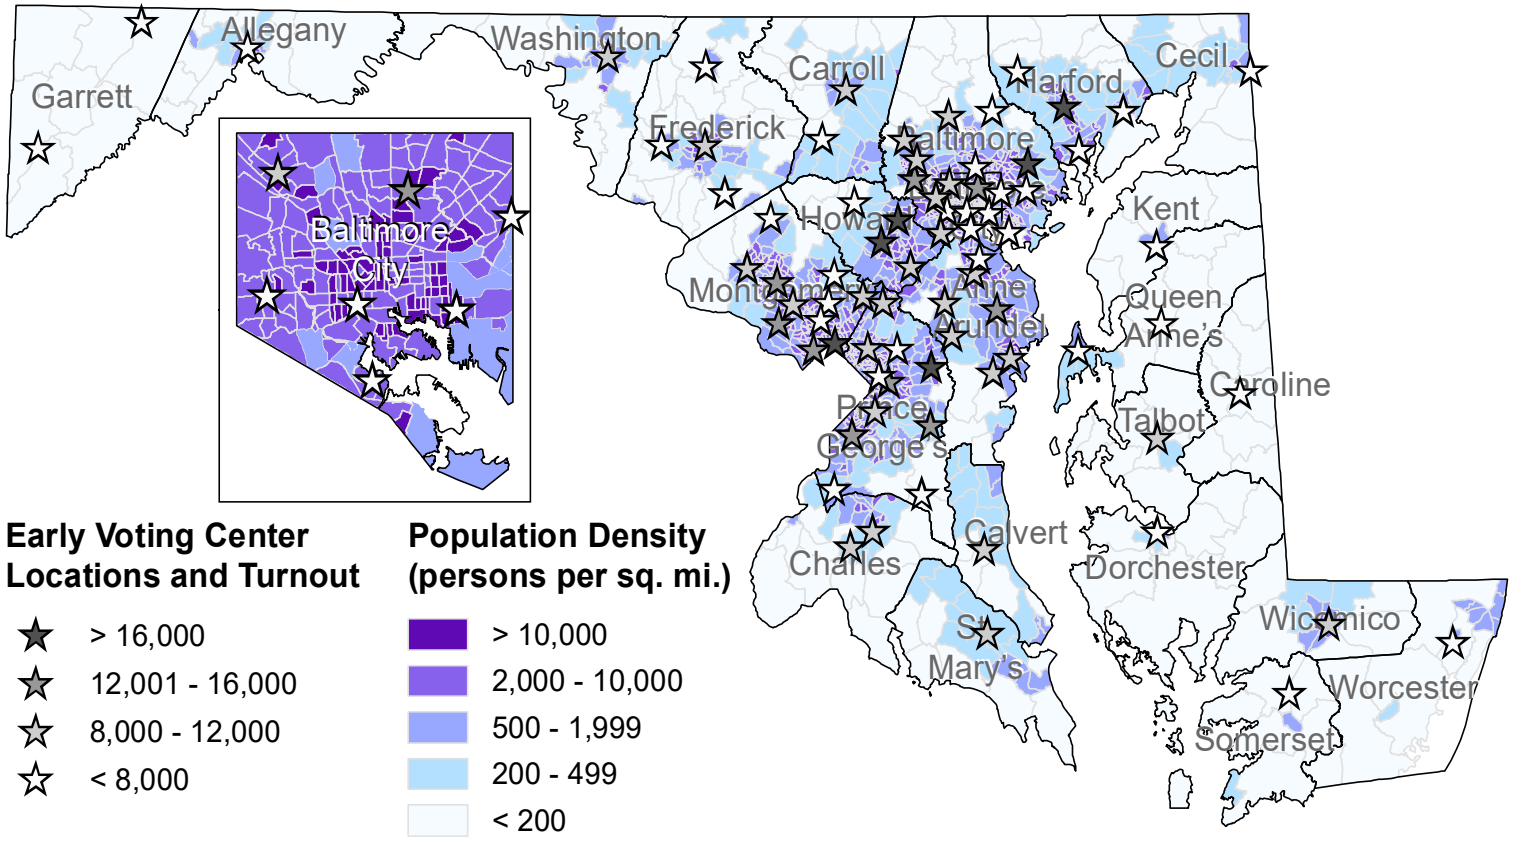
# Early Voting Center Locations/Turnout and Population Density*

## 2018 Gubernatorial General Election



*Population density, which reflects the number of voting age citizens per square mile, is shown for the census tracts within each county and is based on U.S. Census Bureau 2013-2017 American Community Survey 5-year Estimates data (which has a margin of error). Census tracts are geographical subdivisions within a county that are used by the U.S. Census Bureau to present statistical data.
