## Maryland 2020: A State in Transition

Department of Legislative Services
Office of Policy Analysis
Annapolis, Maryland
September 2008

## Contents

- Current Demographics
- Population Trends
- Maryland's Hispanic Community
- Maryland's Asian Community
- Economic Conditions
- Educational Attainment
- United States: Year 2050
- Maryland: Year 2020 and Beyond

## Diversity Is a Key Characteristic of the Nation's Population

- 301.6 million people live in the United States.
- Non-Hispanic whites account for two-thirds of the nation's population.
- Hispanics are the nation's largest minority group and fastest growing segment of the nation's population.
- African Americans are the second largest minority group followed by Asian Americans.

Current Demographics

## Maryland Is Among the Most Diverse States in the Nation

- 5.6 million people live in Maryland.
- Minorities account for over 40\% of the State's population.
- African Americans are the State's largest minority group.
- Hispanics are the second largest minority group followed by Asian Americans.

Maryland Population in 2007
Racial and Ethnic Composition

## Minorities Account for a Large Share of Population in Many States

- Minorities account for $34 \%$ of the nation's population and around 83\% of the nation's population growth.
- Hawaii leads the nation in the minority share of state population.
- Maryland ranks $6^{\text {th }}$ in terms of minority share of state population.
- In Maryland, African Americans are the largest minority group followed by Hispanics and Asians.

Leading States for Minorities Percent of State Population

1. Hawaii
75.3\%
2. New Mexico
3. California
57.3\%
4. Texas
52.1\%
5. Nevada 42.0\%
6. Maryland 41.9\%
7. Georgia
41.5\%
8. Mississippi
41.1\%
9. Arizona 40.9\%
10. New York 39.7\%39.7\%

## Several States Have Few Minorities

- In 27 states, minorities account for less than $25 \%$ of the population.
- In 5 states, minorities account for less than $10 \%$ of the population.
- These states tend to be smaller and are located primarily in New England, the Midwest, and the Rocky Mountain region.
- Maine has the fewest minorities followed by Vermont and West Virginia.

## States with Fewest Minorities Percent of State Population

| 1. Maine | $4.5 \%$ |
| :--- | ---: |
| 2. Vermont | $4.7 \%$ |
| 3. West Virginia | $6.4 \%$ |
| 4. New Hampshire | $6.6 \%$ |
| 5. lowa | $9.4 \%$ |
| 6. North Dakota | $10.1 \%$ |
| 7. Montana | $11.8 \%$ |
| 8. Kentucky | $12.0 \%$ |
| 9. Wyoming | $12.7 \%$ |
| 10. South Dakota | $13.6 \%$ |

## Current Demographics

## Diversity Exists in Many Maryland Counties

| County | Minority <br> Population | Total <br> Population | Percent <br> Minority |
| :--- | ---: | ---: | ---: |
| Allegany | 6,350 | 72,594 | $8.7 \%$ |

## Educational Attainment

## African American Students Are the Majority In Three Local School Systems

- Over 320,000 African Americans enrolled in Maryland's public schools.
- African Americans account for 38\% of total enrollment.
- African Americans are the majority in three local school systems -

African American Share of Student Enrollment September 30, 2007
 Baltimore City, Charles County, and Prince George's County.

## Enrollment of Hispanic Students Has Doubled in Recent Years

- 76,000 Hispanic students enrolled in Maryland's public schools.
- Hispanics account for 9\% of total enrollment.
- Over the last 8 years, Hispanic enrollment has increased by 106.3\% even though overall student enrollment decreased slightly.

# Majority of Asian Students Attend Three Local School Systems 

- 48,000 Asian students enrolled in Maryland's public schools.
- Asians account for $6 \%$ of total enrollment.
- Highest concentration of Asian students are in Baltimore, Howard, and Montgomery counties.

Asian Student Enrollment by Local School System September 30, 2007

## Gaps Remain in Academic Performance

- Hispanic students met adequate yearly progress (AYP) in both reading and mathematics.
- Gaps remain in academic performance among Hispanics students when compared to white and Asian students.
- Hispanic students are performing at a higher level than African American students.

## Racial Minorities Will Continue to Shape Maryland's Future

- Hispanics are the State's fastest growing population group followed by Asians.
- The growing Hispanic and Asian presence is depicted each day in the State's public schools, neighborhoods, and work sites.
- The growth in the State's Hispanic and Asian community has generated many opportunities, particularly in the area of economic development through the creation of small businesses and a strong and dedicated work force.
- With opportunities come unique challenges - educational and health disparities, affordable housing, and access to public services.

## Improving Educational Levels Is Key to Ensuring a Strong State

- Disparities exist in the educational attainment of many ethnic groups in Maryland, particularly among Hispanics.
- Since Hispanics are the fastest growing population group in both the United States and Maryland, it is critical that the educational levels of this group improve as we move forward as a state and nation.
- Unless disparities in education are reduced, the employment and income potential for Hispanics and other ethnic groups will most likely be diminished.
- Ultimately, education is the key that can unlock the potential that exists within each individual thus transforming both families and entire communities.

## Montgomery County Best Illustrates the Educational Divide in Maryland

- Significant disparities in educational levels exist between the white and the Hispanic communities.
- In 2006, less than 4\% of white residents in Montgomery County had less than a high school education compared to over $30 \%$ within the Hispanic community.
- In addition, over 66\% of white residents had at least a bachelor's degree compared to less than $26 \%$ of Hispanics.
- Such disparities may significantly impact the county as its population continues to change.
- Over the last seven years, the county white population has decreased by almost 18,000 people while the Hispanic population increased by almost 33,000 people.

## Task Force on the Preservation of Heritage Language

- Task force must study methods for advancing and preserving heritage language skills.
- The primary object of the task force is to identify innovative and costeffective ways to facilitate heritage language learning while encouraging new U.S. citizens to learn and master English.
- Task force report and recommendations are due by January 1, 2009.
- Maryland State Department of Education must provide staff support for the task force.

## Commission to Study the Impact of Immigrants in Maryland

- Commission must study the fiscal and economic impact of immigration.
- In developing its findings, the commission must distinguish between persons of lawful immigration status and those who are not in lawful immigration status.
- Commission report and recommendations are due by January 1, 2011.
- The University of Maryland, College Park must provide staff support for the commission, in consultation with the Department of Legislative Services, the Department of Budget and Management, and the Governor's Office.
