

# Registered Voters\*

## (as a % of Voting Age Population) – By County

2018, 2020, 2022

- Please note that voting age (18 and over) population includes individuals who are not eligible to register to vote, including noncitizens and individuals in prison for a felony. Some jurisdictions' voter registration percentages are more affected than others' by populations that are not eligible to register to vote. Somerset County, for example, contains State prison facilities with a significant population relative to the county's overall voting age population, and, of all the counties, Montgomery and Prince George's counties' populations have the greatest proportions of noncitizens.

\*At the time of the general election.
