Team Member Benefits: [Click Here to Learn More](#)

Position Summary:

The Security Engineer/Administrator is responsible for the monitoring for and prevention of cyber security events, conducting threat intelligence, hunting activity, proactive risk mitigation, coordinating and leading incident response for cyber incidents and forensics investigations. Candidates for the Security Engineer/Administrator role should be able to apply and understand a wide range of technical principles, theories and concepts, work under only general direction, provide technical solutions to a wide range of difficult problems, and independently determine and develop an approach to solve problems.

Principal Duties:

- Monitoring and reporting on various currently deployed security systems including firewalls, certificate infrastructure, antivirus and malware protection, email and cloud security suites
- Developing and implementing security event incident procedures
- Investigating and resolving possible security breaches
- Researching, condensing, and reporting on security bulletins and publicly identified threats
- Maintain situational awareness and keep current with cyber security news and threat actor Tactics, Techniques, and Procedures (TTPs)
- Leading efforts to keep software and hardware on up-to-date security levels and patches
- Perform enterprise level Vulnerability Assessments and identify mitigation and/or remediation actions
- Development of security guidance, policies, and procedures
- Support the development of new systems and modernization of legacy systems/applications that are in line with Security requirements.
- Coordinate the response for confirmed security incidents, to include efforts to contain, remediate, recover, and prevent

Qualifications:

- Bachelor's degree in Computer Science or related field.
- Current CISSP certification (or equivalent industry standard security certification).
- 3-4 years' experience working on Security related Principal Duties listed above.

To Apply:

- **Email Resume and Cover Letter** to jobs@mlis.state.md.us and include code 12-22. The cover letter should state the reasons for interest in the position, any relevant experience, and availability to begin work.

The Department of Legislative Services is an equal employment opportunity employer and will not discriminate against any employee or applicant for employment in a manner that violates law, regulation, or legislative policy.
