

## **Task Force to Study Fiduciary Adjudication in Maryland**

**December 8, 2025**

### **List of Additional Proposals for Voting to be Incorporated into Draft Preliminary Report and Extension Letter as Necessary:**

1. The Maryland Rules be amended, either by the Rules Committee or mandated by the General Assembly to be amended, to allow the public inspection of educational materials and attendance records for Orphans' Court judges related to training and continuing education.
2. Strike all testimony related to the training and education of Orphans' Court judges, that none of that testimony may be considered as part of our voting session Monday or any future work on the task force, and that no member may make any further statement on that subject for the remainder of the future work of the task force.
3. End elections of Orphans' Court judges, mandating that every jurisdiction adopt the Harford, Howard, Montgomery Counties model. Follow this by developing a detailed proposal that would expand those courts' jurisdiction to other fiduciary matters.
