## Quick Look at Fiscal 2027 Budget

### Budget Growth Fiscal 2026-2027 (\$ in Millions)

	<u>2026 Plan</u>	<u>2027 Plan</u>	<u>\$ Change</u>	<u>% Change</u>
All Funds	\$70,238	\$70,743	\$505	0.7%
General Funds	27,871	27,717	-154	-0.6%
Special Funds*	20,877	21,852	974	4.7%
Federal Funds	21,490	21,174	-315	-1.5%

\*Includes higher education funds and excludes double counts.

- The Governor's spending plan leaves a general fund balance of \$108 million at the end of fiscal 2027.
- The Revenue Stabilization Account (Rainy Day Fund) ends fiscal 2027 with a balance of \$2.17 billion (8% of general fund revenues). Combined cash balances at the close of fiscal 2027 of \$2.3 billion equal 8.4% of general fund revenues.
- Ongoing spending in the fiscal 2027 allowance exceeds ongoing revenues by \$394 million, meeting the Spending Affordability Committee's (SAC) goal of limiting the structural deficit to no more than \$600 million.
- The budget includes \$3 billion in deficiency appropriations, including \$986 million of general funds.
- General fund spending declines due to cost containment efforts and the fiscal 2026 budget including \$322 million to pay fiscal 2025 costs that could not be absorbed in the fiscal 2025 budget. Removing the fiscal 2025 costs from the fiscal 2026 budget results in the General Fund growing \$168 million (0.6%) in fiscal 2027.
- Federal spending declines in fiscal 2027 due primarily to lower federal Medicaid claims reflecting fiscal 2026 spending on fiscal 2025 bills. Growth in special fund spending is spurred by a \$357 million increase in the Blueprint for Maryland's Future (Blueprint) Fund spending on education, a \$287 million increase in spending for transportation, and \$70 million to administer the paid leave program.
- The Administration's budget plan includes revenue and spending adjustments with a combined general fund impact of \$1.536 billion that are contingent on legislation.

## Structural Outlook

- Despite considerable progress in reducing the structural deficit for fiscal 2027, a significant structural gap remains in the out-years.
- The Administration projects higher out-year costs than assumed by the Department of Legislative Services (DLS) in its December 2025 forecast for SAC. Employee salary and benefit expenses, teachers' retirement, and human service spending are among the drivers of the more pessimistic out-year forecast.

### General Fund Structural Budget Outlook

DLS: Department of Legislative Services  
SAC: Spending Affordability Committee

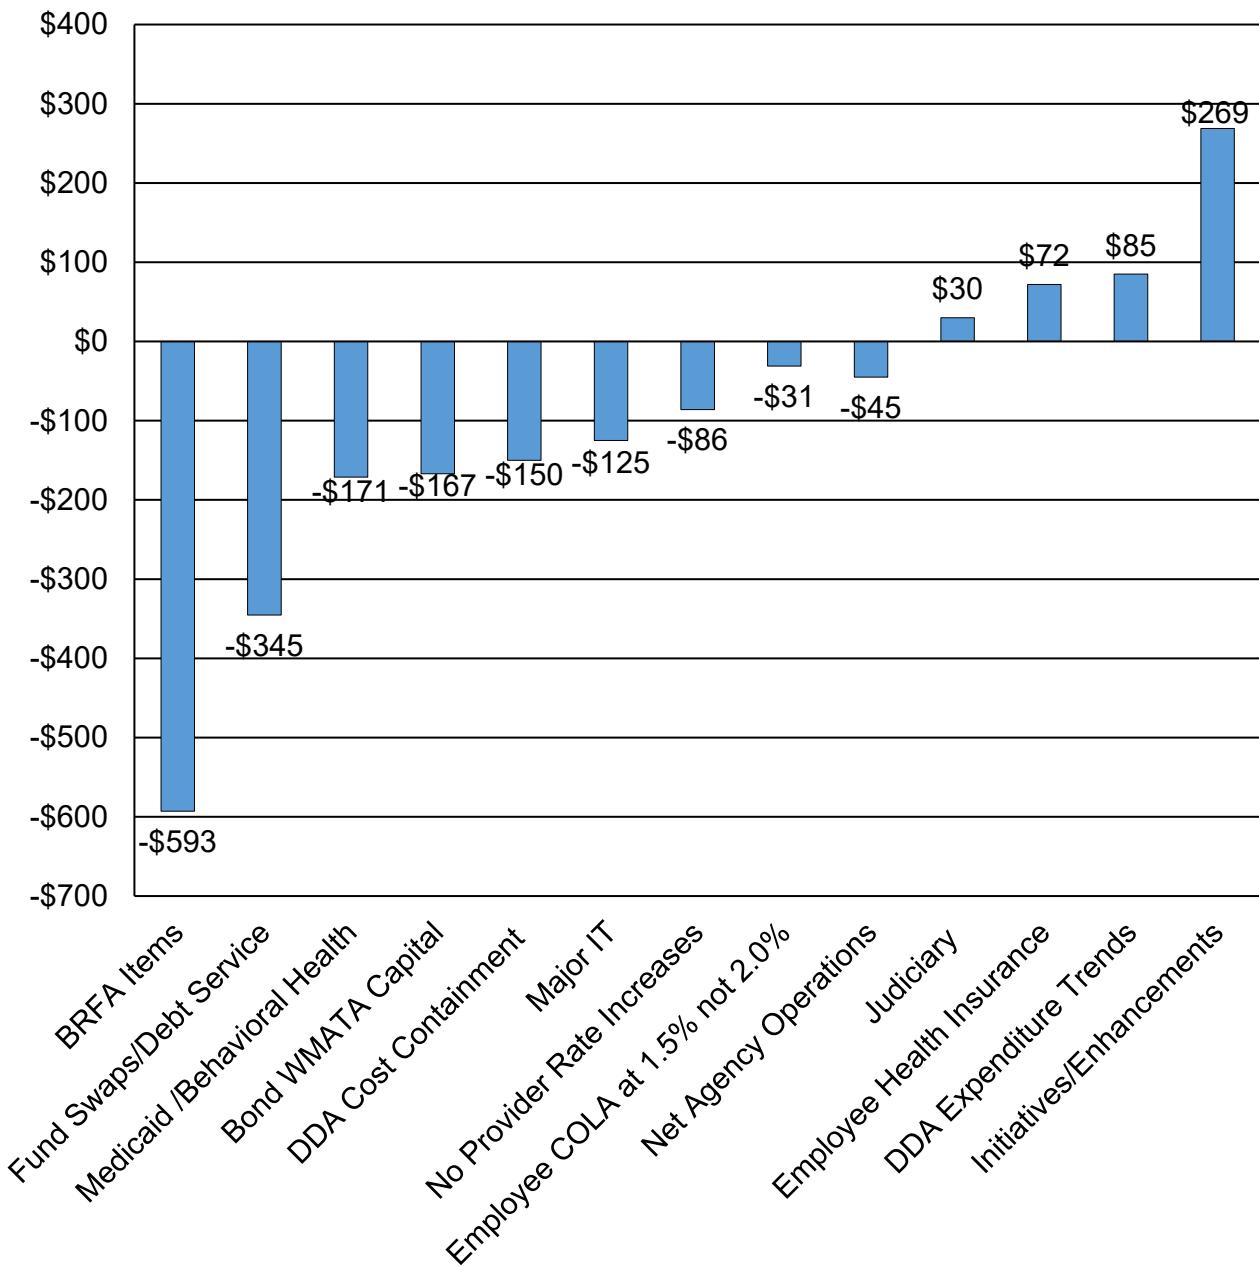

## How Did the Governor Eliminate the Projected \$1.6 Billion Cash Deficit?

- In December 2025, DLS estimated that the State faced a cash shortfall of \$17 million in fiscal 2026 and \$1.562 million in fiscal 2027, assuming the Rainy Day Fund balance remained at 8% of general fund revenues for fiscal 2027.
- The Governor's budget plan erases the deficit by reducing spending (75% of solution), proposing modest revenue enhancements, and transferring funds from various balances and accounts to the General Fund.

## Other Key Features

- Due to surging Regional Greenhouse Gas Initiative and Alternative Compliance Payment revenues, the State has accumulated a substantial Strategic Energy Investment Fund (SEIF) surplus. As shown in the chart below, the Governor proposes allocating about \$333 million to budget relief and \$392 million to enhancements. After these actions, a SEIF balance of \$164 million remains.

### Proposed Use of SEIF Surplus (\$ in Millions)

#### Budget Relief (\$333 Million)

Transfer to General Fund (Includes Balance in Administration Account)	\$292
Capital Budget Projects	30
Fund Swaps	11

#### New Investments (\$392 Million)

Ratepayer Credits	\$100
Incentives for Solar and Clean Energy Projects to Backfill Federal Cuts	100
Refocus Higher Education Research on Energy/Resiliency/Climate	42
Energy Resource Adequacy and Planning Act	25
Enhanced Renewable/Clean Energy and Energy Efficiency Activities	125

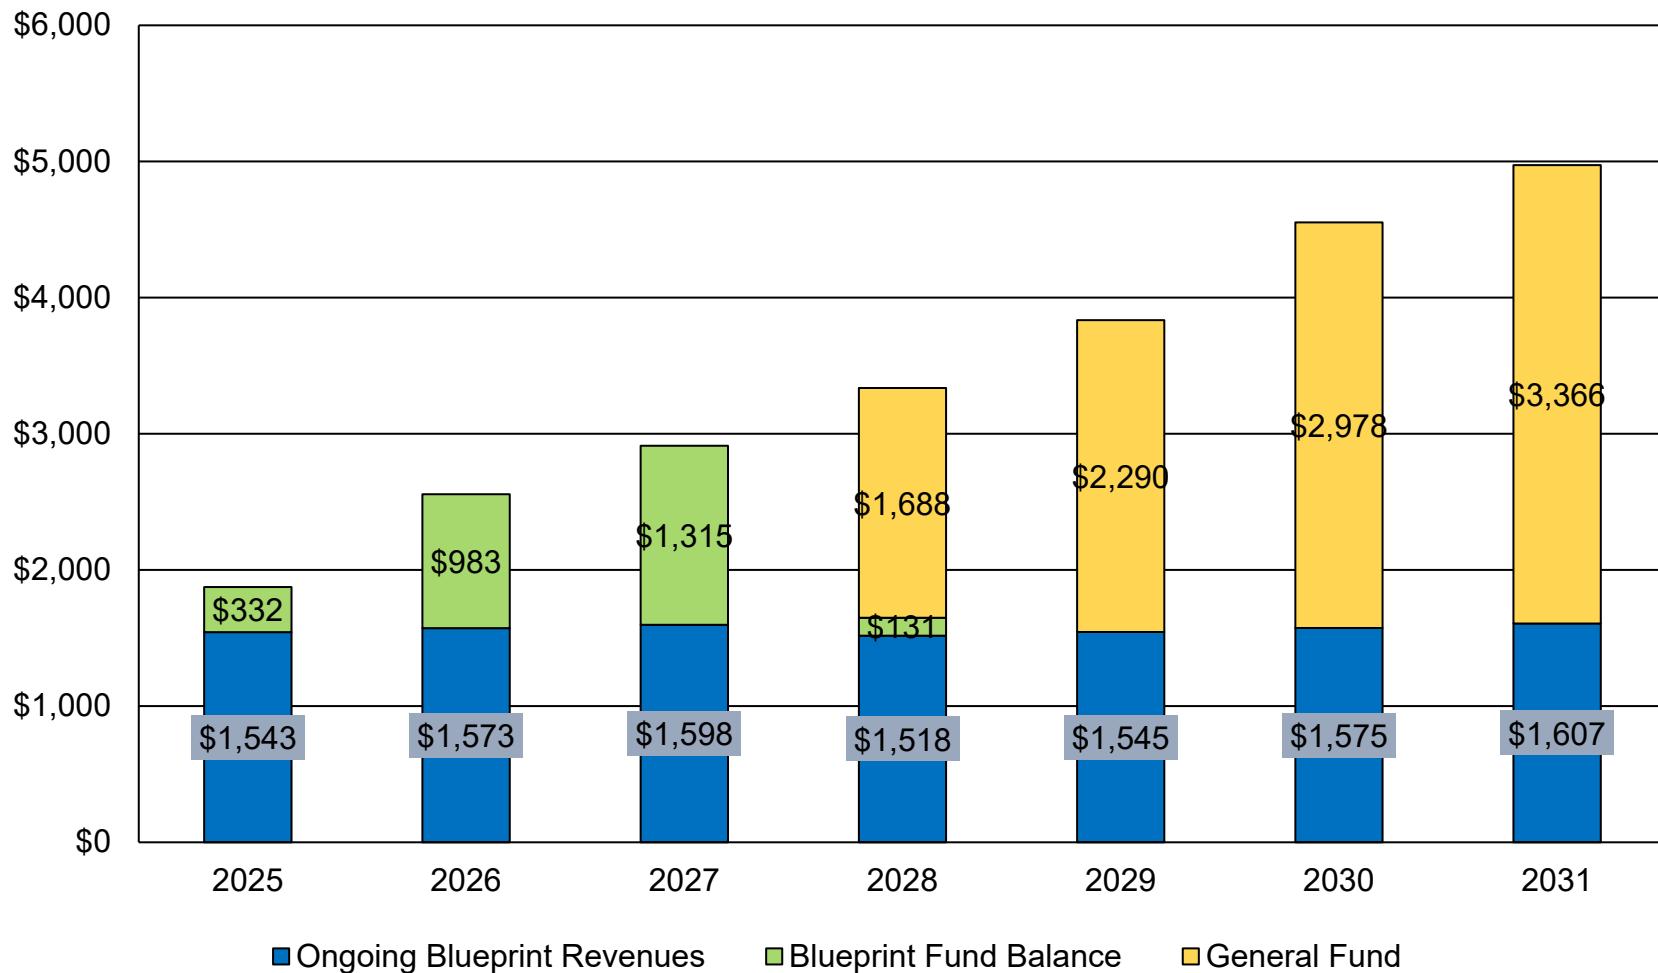

- K-12 education funding increases by \$359 million (3.7%), which includes \$228 million of discretionary funds from the Blueprint Fund to hold schools covered by the Community Eligibility Provision harmless from declines in Free and Reduced-price Meal (FARMS) counts. The Administration will propose legislation to extend the hold harmless indefinitely.
  - Growth in education aid is dampened by enrollment declines. Full-time equivalent enrollment drops 1%, while English Language Learner and FARMS counts fall 4% and 2%, respectively.
  - Every school system except Garrett County receives an increase in direct aid in fiscal 2027.
- No funding is provided for a rate increase for health and human service providers. Other cost containment actions save \$150 million of general funds in the Developmental Disabilities Administration (DDA).
  - DDA actions include a cap on the maximum benefit, elimination of the wage exception process, and changes to reasonable and customary charges and dedicated hours policies.

- \$56 million of State funds to implement One Big Beautiful Bill Act (OBBBA) provisions, including \$43 million to cover an increase in the State share of Supplemental Nutrition Assistance administrative costs and \$13 million related to Medicaid requirements.
- Base funding for the State's public higher education institutions increases by \$71 million (3%) in fiscal 2027, including \$42 million to pivot the focus of research activities to energy, resiliency, and climate issues.
- The allowance includes \$144 million of general funds for salary increases, including a 1.5% cost-of-living adjustment for most employees, increments for members of the State Law Enforcement Officers Labor Alliance, targeted salary adjustments for hard to fill classes of positions, and modifications to the salary schedule to provide a 2% raise at each step.
- The budget plan shifts \$39 million of costs to local governments by requiring locals to pay a larger share of teachers' retirement costs. Cost containment actions impacting local aid level fund the Disparity Grant (saving \$27 million) and cap growth for each community college at 3% (saving \$21 million). School systems, however, receive \$228.4 million more than required by statute.
- Capital spending from general obligation (GO) bonds is funded at \$1,750 million, the level recommended by SAC. Another \$74.8 million of GO capacity is created through deauthorizations of previously approved projects. GO bonds are supplemented by \$5 million in bond premiums and \$58 million in general fund cash.
- The Therapeutic Treatment Center project is deferred until future years, creating capacity in the capital budget for operating budget relief.
- \$322 million of operating relief is provided by bonding activities that would otherwise be funded with cash, including a Washington Metropolitan Area Transit Authority capital grant (\$167 million) and various natural resources and environmental programs (\$155 million).
- The budget reserves \$75 million for the General Assembly to allocate for capital priorities. Of the \$111 million in legislative preauthorizations from the 2025 session, about \$58.8 million are funded.
- The budget dedicates \$453.5 million in GO bonds to school facility needs.

## Potential Legislative Issues

- The long-term sustainability of the budget.
- Ongoing federal policy changes create substantial uncertainty. Additional cuts to federal employment and/or aid to State governments will adversely impact the Maryland economy and budget. To mitigate these risks, the General Assembly should consider increasing cash reserves.
- While the Governor proposes decoupling from certain OBBBA tax provisions, additional decoupling opportunities are available.
  - Decoupling from a provision allowing businesses to deduct all research and experimental expenditures in the year that they are incurred would generate about \$100 million of revenue for the State over fiscal 2026 and 2027.
  - Decoupling from a provision increasing the amount of business interest expenses that can be deducted would generate \$28 million of revenue for the State over fiscal 2026 and 2027.
- The adequacy of funding for behavioral health. The budget anticipates about \$170 million less than forecast by DLS in December 2025. Demand for behavioral health services by adults enrolled in Medicaid has surged over the last 24 months. DLS will explore whether the budget appropriately captures current trends.
- At the close of fiscal 2025, the Office of Legislative Audits identified \$1.4 billion of federal revenue assumed by the Maryland Department of Transportation for which there was no supporting documentation. There is a risk that State funds will be needed to backfill for a portion of this revenue.
- The affordability of State employee health insurance. Costs are projected to increase by 9% in fiscal 2027.
- The Child Victims Act of 2023 allows a survivor of sexual abuse to file a civil lawsuit against the State with no statute of limitations. The State's liability is capped at \$890,000 per occurrence for people who filed before June 1, 2025. Approximately 12,000 claims were filed before the deadline. These claims expose the State to an enormous potential liability for which the State has no dedicated resources to fund.

## Federal Government in Maryland

- In 2024, there were about 162,000 civilian federal jobs located in Maryland (5.7%) with wages totalling \$25 billion, around 11% of total wages. Virginia and the District of Columbia each have around 193,000 federal jobs, and many Marylander's commute to those jurisdictions.
- Since January, there has been a significant reduction in federal employment. Maryland has seen the largest decline of any state. The decline puts federal employment just below the level in 2010 when there were 139,900 jobs in the state.

	<u>Jan. 2025</u>	<u>Nov. 2025</u>	<u>Change</u>	<u>% Change</u>	<u>Rank</u>

## Maryland Employment: November 2025 vs. January 2025

- Since January, Maryland has lost almost 25,000 federal government jobs, a decline of 15.3%. Strong growth in State and local government employment has partially offset this, but total government jobs are still down 3.0%
- Private-sector job growth has been very weak since January (0.1%). Declines across a variety of sectors were offset by growth in four: construction; education; health care; and leisure and hospitality services
- Overall, Maryland employment has fallen by almost 20,000 jobs (-0.7%) since the beginning of the year. Maryland ranks forty-ninth out of the 50 states and the District of Columbia.

<sup>(1)</sup> The Blueprint for Maryland's Future Fund (BMFF) share of certain sales and use tax revenues increased from 11.0% in fiscal 2024 to 11.3% in fiscal 2025.

<sup>(2)</sup> Chapters 254 and 255 of 2023 imposed a 9% sales tax on cannabis. Fiscal 2024 general fund revenue includes \$30.5 million. Total revenue from cannabis sales increased 12.6% in fiscal 2025, but the portion devoted to the administrative costs of the Maryland Cannabis Administration increased from \$2.8 million in fiscal 2024 to \$30.1 million in fiscal 2025 resulting in general fund revenue of \$20.8 million. Total cannabis revenue underattained the fiscal 2025 estimate by \$15.1 million.

<sup>(3)</sup> The Budget Reconciliation and Financing Act of 2024 (Chapter 717) increased tobacco tax rates and added a new distribution of tobacco revenues to the BMFF. In fiscal 2025, the distribution was set at \$88.3 million equal to the expected impact of the rate increases.

<sup>(4)</sup> The Comptroller's annual analysis of the local income tax reserve account determined the account was overfunded at the end of fiscal 2023 by \$315.7 million. The Board of Revenue Estimates (BRE) chose to transfer a little less than half that amount to reduce the overfunding in the account.

Note: The estimate from March 2025 has been adjusted for actions taken at the 2025 legislative session.

<sup>(1)</sup> The Budget Reconciliation and Financing Act (BRFA) of 2025 (Chapter 603) included several personal income tax provisions: (1) added two new income tax brackets at the top of rate schedule, increasing the top rate from 5.75% to 6.5%; (2) increased the standard deduction in tax year 2025; (3) capped itemized deductions for taxpayers with federal adjusted gross income over specified levels; (4) increased the income eligibility threshold for the child tax credit; and (5) imposed a 2% surtax on certain net capital gains income for taxpayers with federal adjusted gross income over \$300,000 with 37.5% of the revenue distributed to the Transportation Trust Fund and the remainder to the General Fund. Combined the provisions were projected to increase general fund revenue by \$580 million in fiscal 2026 and \$440 million in fiscal 2027.

<sup>(2)</sup> The Blueprint for Maryland's Future Fund (BMFF) share of non-cannabis sales tax revenues after other distributions increases from 11.3% in fiscal 2025 to 11.7% in fiscal 2026 and 12.1% in fiscal 2027.

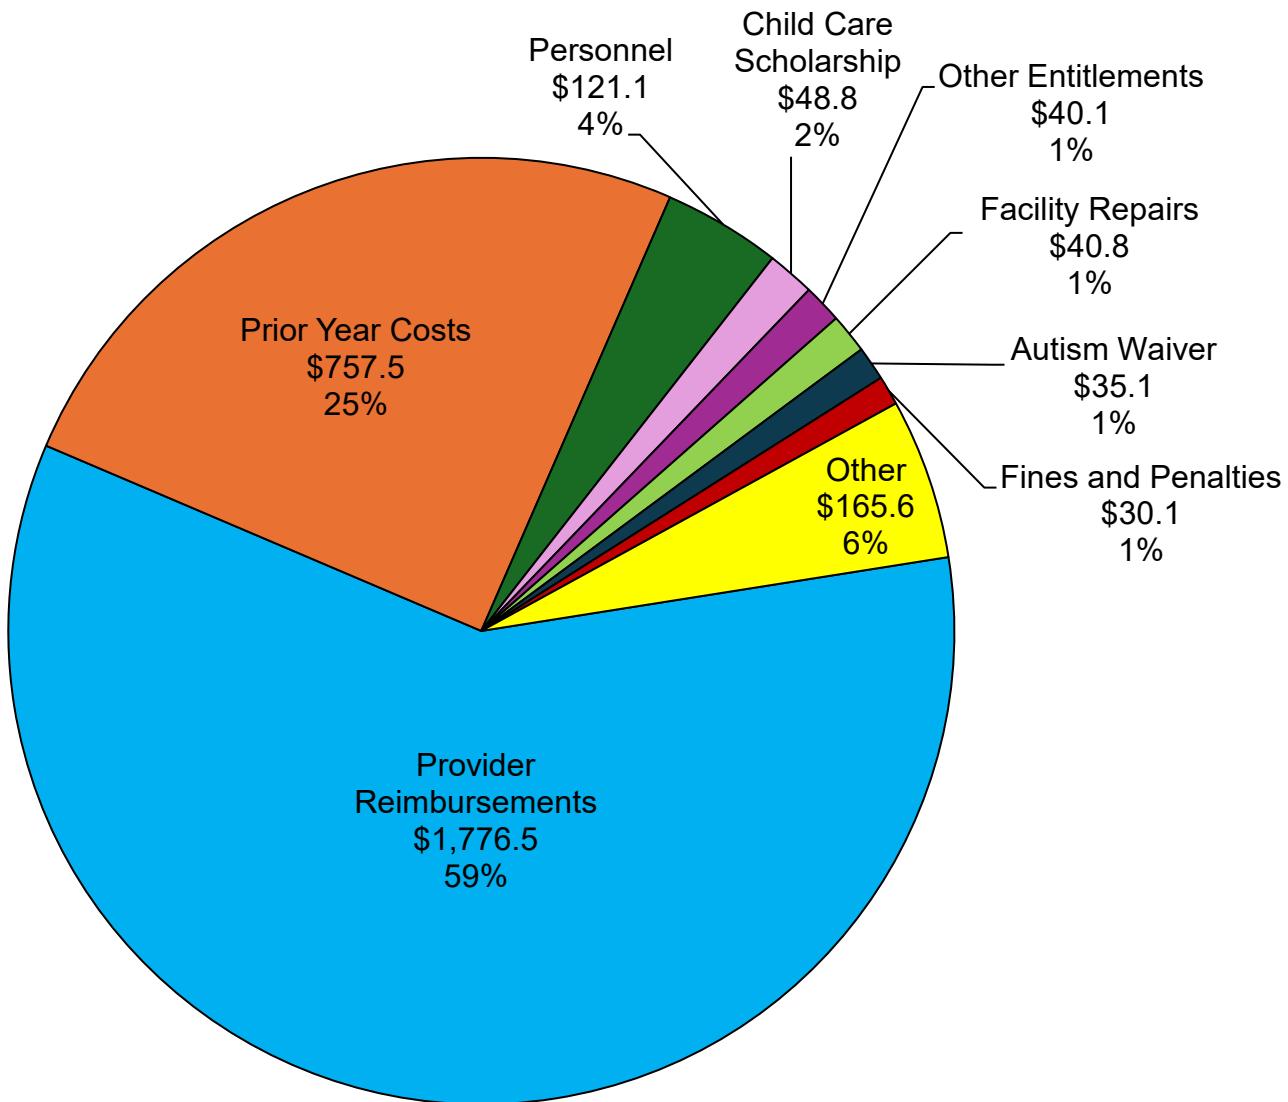

<sup>(3)</sup> The BRFA of 2025 included several sales tax provisions: (1) increased the rate on cannabis from 9% to 12% and directed the first 25% to the General Fund; (2) repealed the exemptions for snack food in vending machines and photographic equipment; (3) imposed the sales tax on the sale of certain precious metal coins and bullion; and (4) imposed a 3% tax on certain data and information technology services with all revenue going to the General Fund. Combined the provisions were projected to increase general fund revenues by \$549.7 million in fiscal 2026 and \$757.6 million in fiscal 2027.

<sup>(4)</sup> The BRFA of 2024 (Chapter 717) increased tobacco tax rates and added a new distribution of tobacco revenues to the BMFF. In fiscal 2025, the distribution was set at \$88.3 million. In fiscal 2026, the distribution is equal to 32.6% of tobacco tax revenues, rising to 33.2% in fiscal 2027.

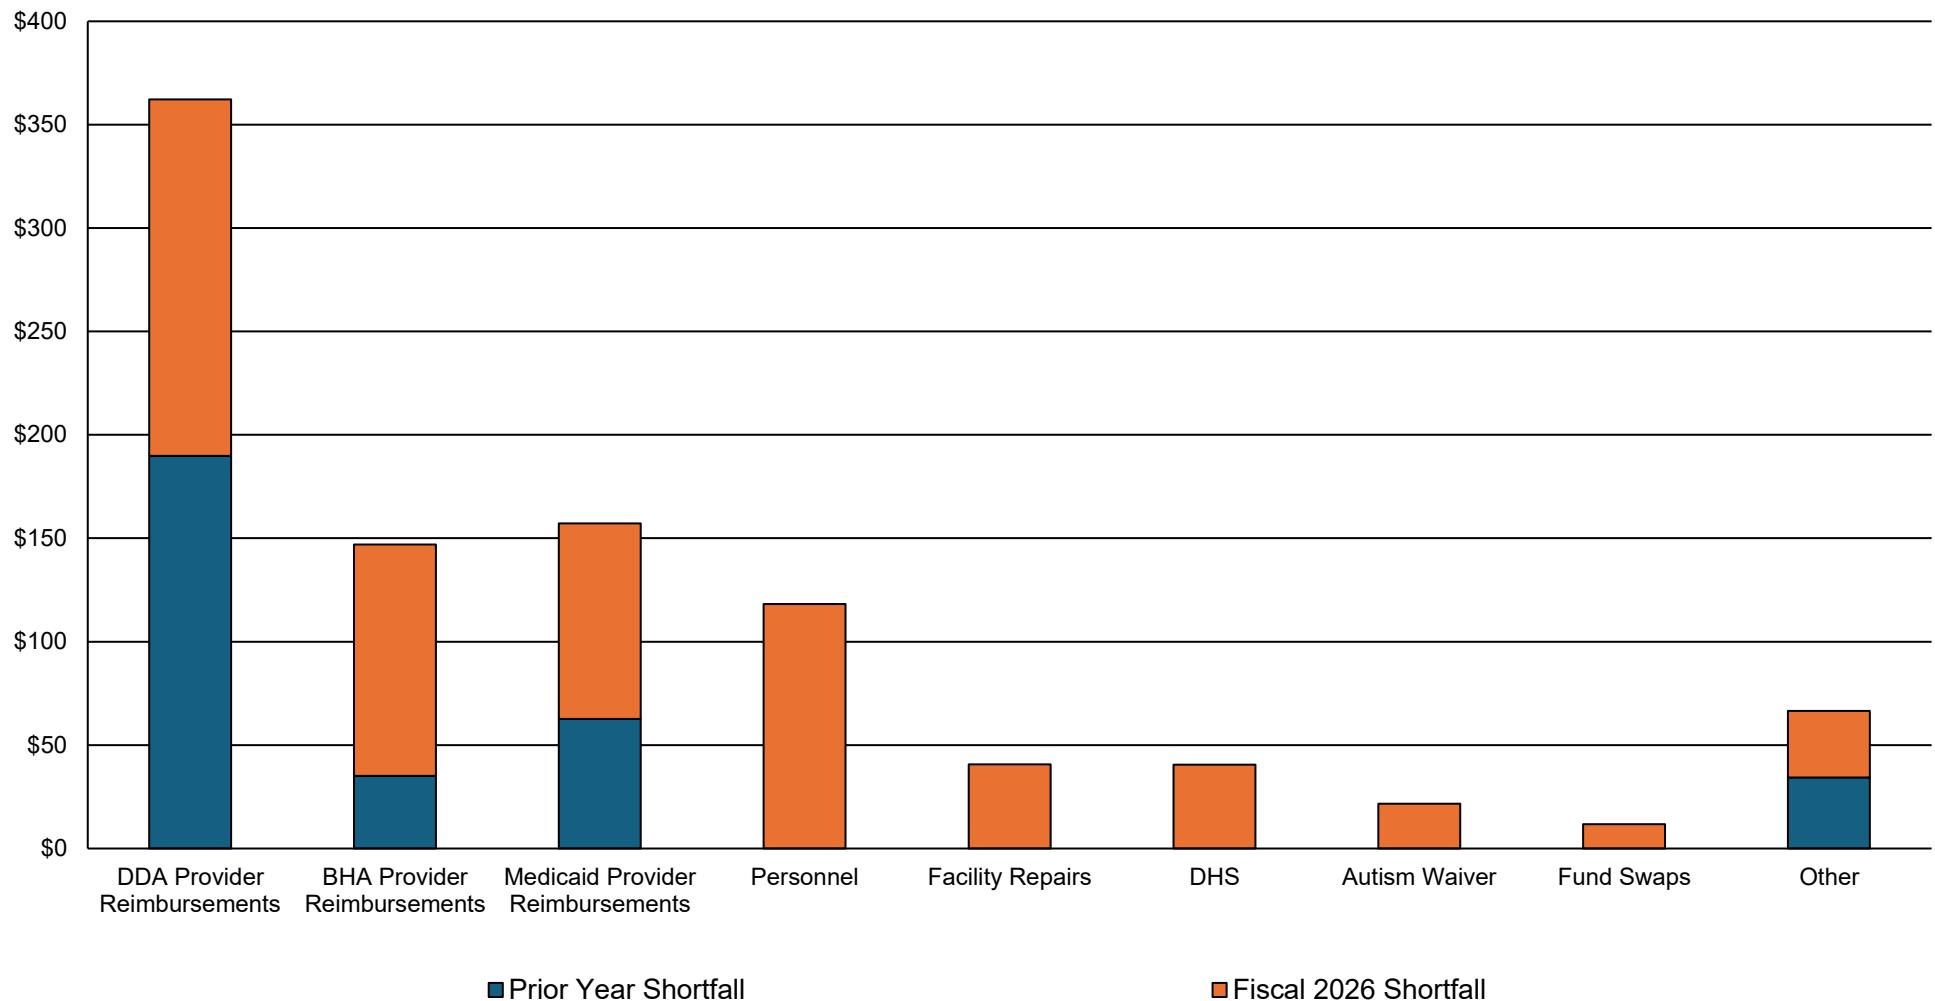

<sup>(5)</sup> December estimate includes \$28.0 million in fiscal 2026 and \$28.5 million in fiscal 2027 from sports wagering revenue. The BRFA of 2025 increased the tax on mobile sports wagering from 15% to 20% and distributed the extra 5% to the general fund beginning in fiscal 2026.

SNAP: Supplemental Nutrition Assistance Program

\*Assumes Error Rate remains above 10% but below levels that would allow for a delay. If delayed, impacts would begin in either fiscal 2029 or 2030.

\*\* Could be delayed to January 1, 2029, if Maryland receives a good faith effort exemption. Fiscal 2027 impact reflects DLS estimate.

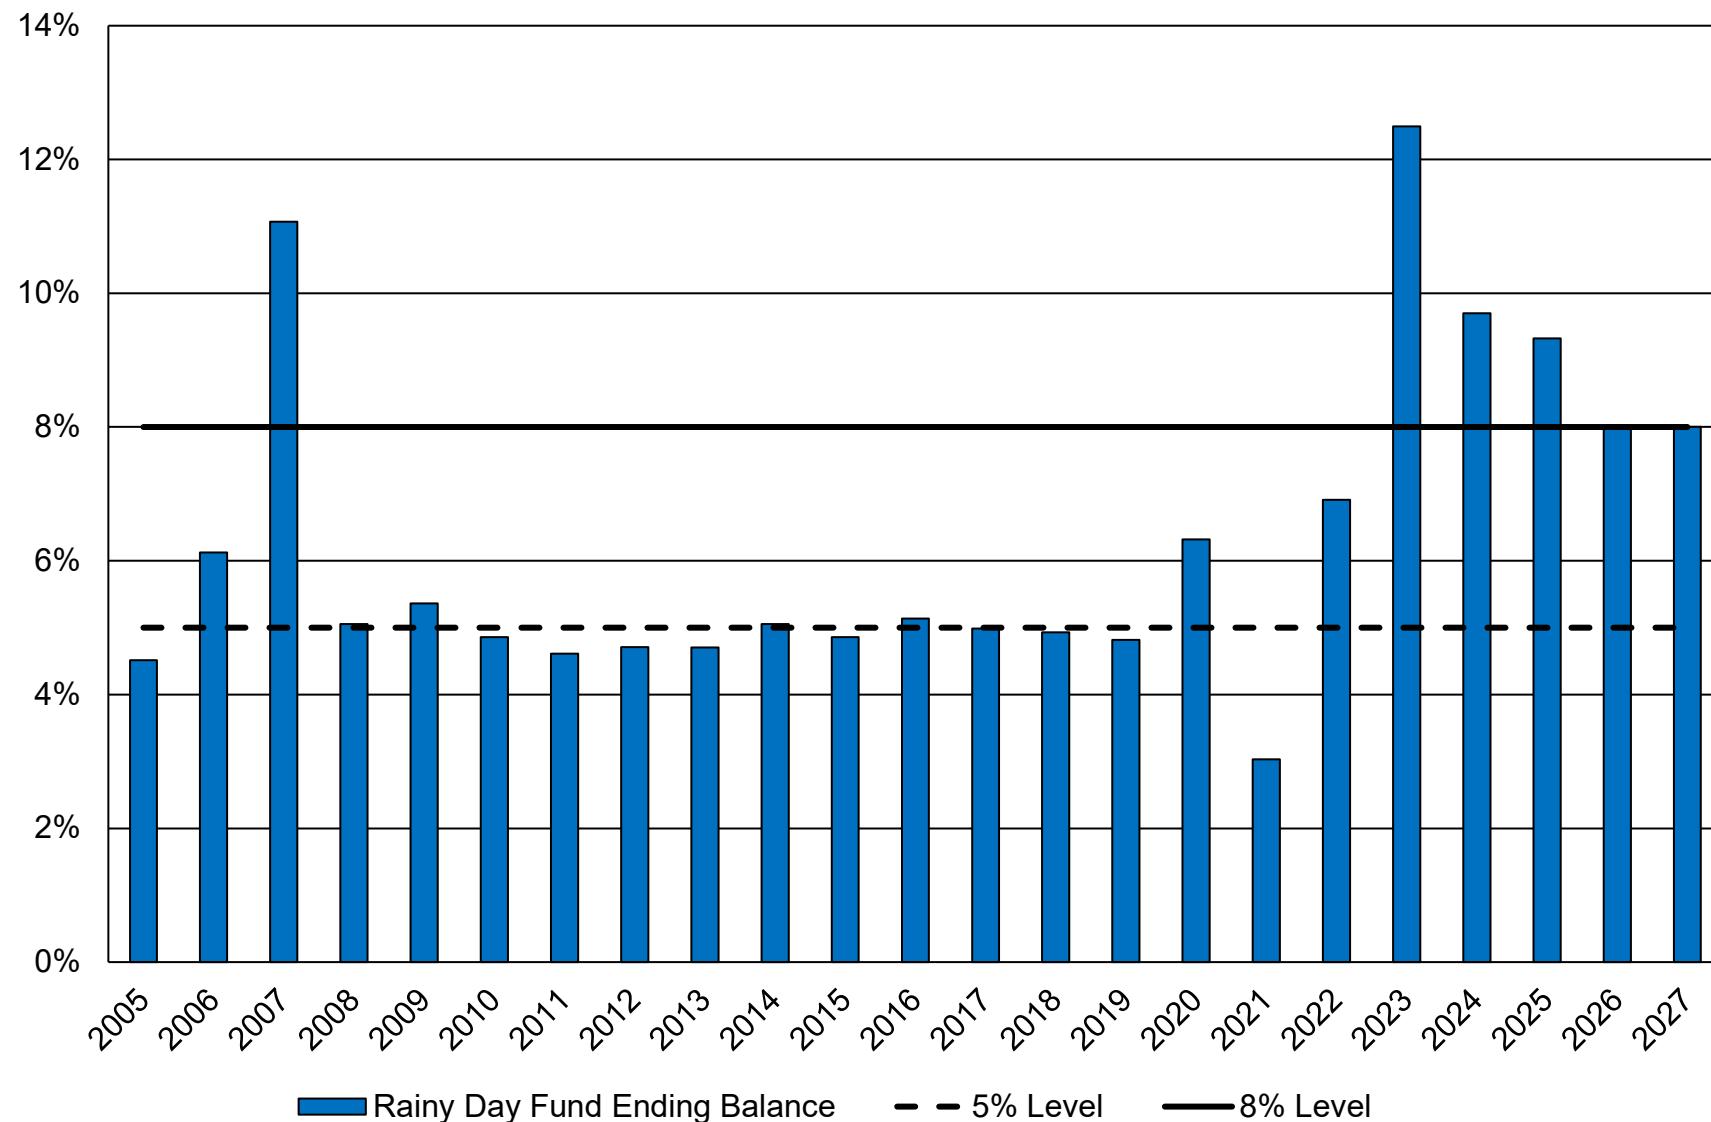

\*\*\*Costs in the Maryland Department of Health and the Maryland Health Benefit Exchange for new positions and reclassifications, marking, call center, information technology, and printing costs. Also includes \$2.5 million in the Dedicate Purpose Account for innovative solutions to limit coverage and benefit losses (fiscal 2027).

**Enrollee Impacts**

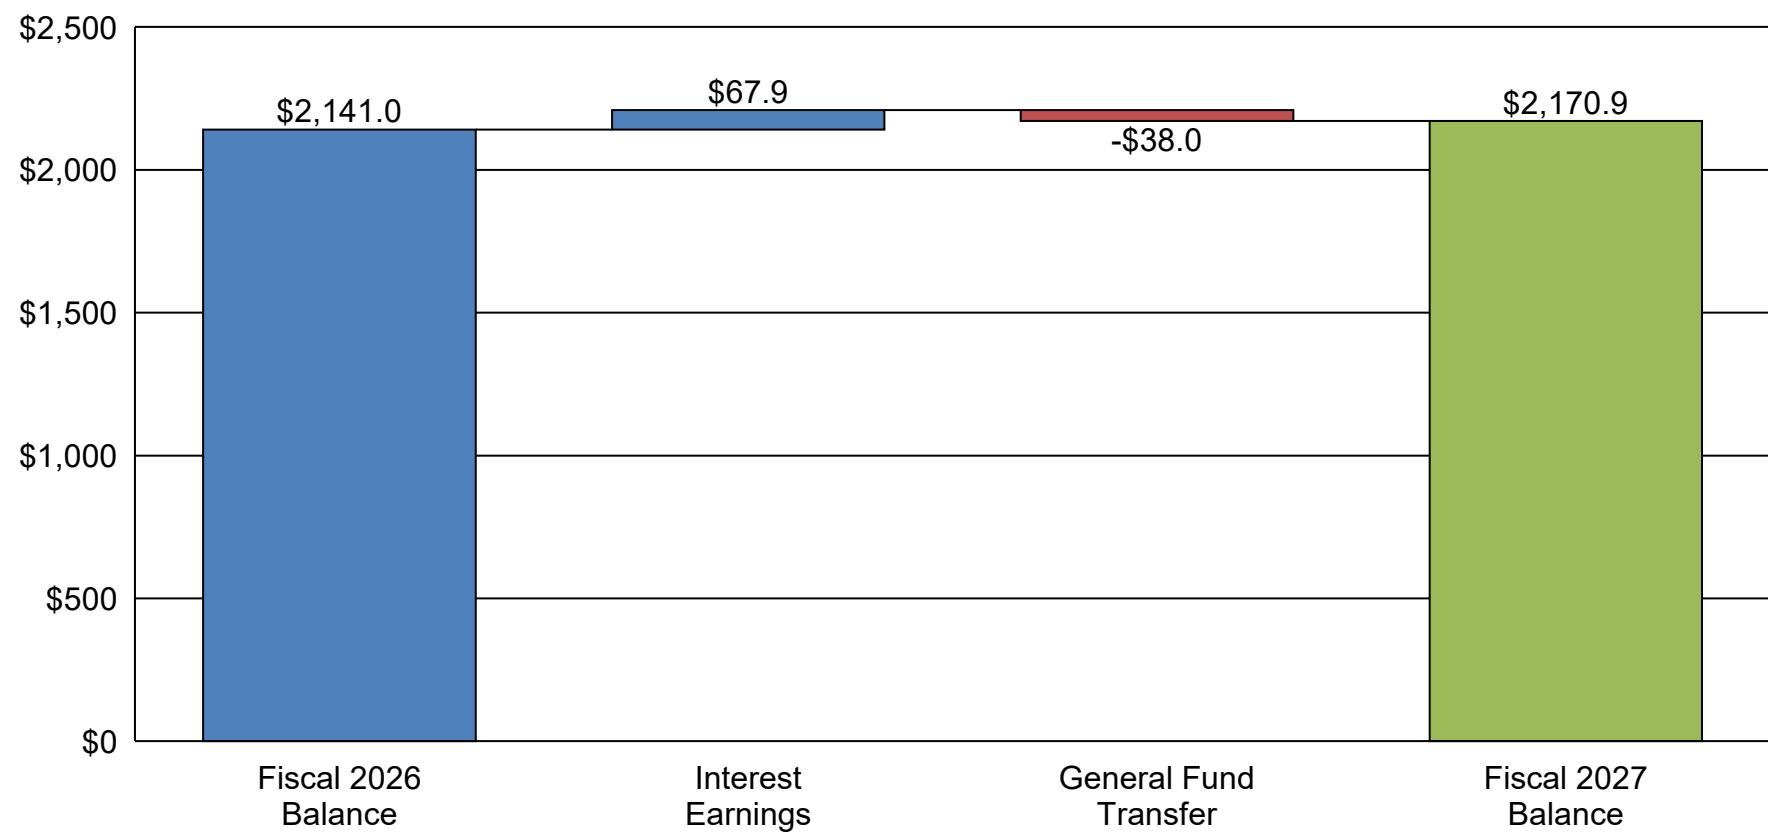

DLS estimates 7,555 SNAP case closures in fiscal 2026, increasing to 31,466 in fiscal 2027 and a net reduction of 140,000 Medicaid recipients.

The Department of Human Services estimates up to 118,700 households may see a reduction in SNAP benefits due to the changes to Heat and Eat. DLS estimates some households may be able to document utility costs to maintain benefit levels.
